OUR CORE

At Stele, we design and manufacture prefabricated wall and roof panels, structural sections, and metal accessories.

Our advanced material solutions enable precisely engineered spaces that deliver outstanding thermal and acoustic performance while allowing for fast and efficient construction.

We are strategically located at the chicken's neck of India to fulfill quality construction needs across Northeastern India as well as Bangladesh, Nepal and Bhutan.

MISSION

To maintain a cutting-edge quality at a globally competitive level making sustainable and eco-friendly choices.

Ayush Sarawgi
Vice President

VISION

To elevate the human experience through modern construction solutions that create human-centered spaces.

STELE operates across multiple segments of the pre-engineered buildings and these are at the forefront.
